

Screenex Datasheet

Description:	Screenex is a mesh constructed from PVC coated high tenacity polyester, with the appearance of a fine flywire mesh yet high tear resistant properties. Manufactured in Japan for HVG's exclusive distribution in Australia. This is a fine weave pattern which is ideal if even the smallest insect is a problem however if a more traditional flywire weave pattern is required then please refer to Screenex Plus.
Application:	Camper trailer windows, tent windows, bags, swags, quarantine covers & privacy screens.
Weight:	130gsm
Width:	187cm
