

Tensitech 480 Datasheet

Description

Tensitech 480 is one of the most robust commercial shade cloths available. It comes in a variety of colours, some that meet ARPANSA's highest protection standards, classified as "Very Effective" for blocking harmful UV rays.

Boasting excellent strength and exceptional tension, Tensitech 480 remains taut and secure even in high wind conditions. It is highly resistant to dirt and mould, and its close-knit construction makes it nearly impervious to punctures or damage from sharp objects. This durability makes it perfect for commercial environments where vandalism is a concern.
